

# OUTDOOR PRODUCTS

See the World in a New Way

## ABOUT HIKMICRO

HIKMICRO treats thermal imaging technology as the core additional with visible-light imaging and ultrasonic technology, providing products and solutions to the world. HIKMICRO's products are widely used in the outdoor, industrial, security and safety industries and consumer electronics, etc., serving customers in over 100 countries and regions.

## 2008

### Started

investing in thermal technology

## 2010

Released

**the first thermal network camera**

## 2016

### HIKMICRO was founded

Released a full portfolio of thermal security products with fully optimized imaging, algorithms and intelligence

## 2018

**Released 17  $\mu\text{m}$  384x288 / 640x512 detectors**

Released outdoor and handheld thermography products

## 2019

**Released 17  $\mu\text{m}$  160x120 detectors**

Released 160\*120 series products to meet the needs of niche market, such as short-range perimeter defense and indoor fire prevention

## 2020

**Released 12  $\mu\text{m}$  256x192 / 384x288 / 640x512 detectors**

Powerful V0x 12 $\mu\text{m}$  imaging sensor presents clear and detailed pictures, and offers new experience in observation.

## 2022

**Released 384x288/640x512 high sensitivity detectors with NETD < 20mK**

**Released digital night vision rifle scope with the unique 1/1.8-inch sensor and 3D DNR image algorithm**

## 2021

**Released 12  $\mu\text{m}$  1280x1024 detectors**

In-house 12 $\mu\text{m}$  detectors were widely used on thermal products.

**Innovation leader of bi-spectrum monocular in the sector**

Combine thermal and night vision images, the bi-spectrum monocular meets the needs of quick research and clear target identification.

## 2023

**High thermal sensitivity 20mK is widely applied in outdoor products**

# HIKMICRO Sight

## Firmware Upgrade

The App automatically detects the firmware update information when you connect your device with it. Simply click on the reminder and get updated instantly.

## Browse and Download Exciting Moments

Browse the images and footage in your thermal device and APP whenever you want, sharing these thrilling moments to your social medias with 1-Tap.

## Remote Control

HIKMICRO Sight unlocks the full potential of your device by granting users total control of main parameters while enjoying an HD live view of the device, helping you operate the device in an easier way.

## HIKMICRO Academy

Aim to tell you how to use your products better with various products videos and documents.

## Real-time Screen Sharing

View the real-time image of your device on the smartphone. Connect one device with multiple phones that enables your team view the image on their own HIKMICRO Sight. Rotate the screen so that you can see the Sight in portrait or landscape mode.

## After sales service

Online service for any immediate consultation  
Product registration for warranty checks or updates.

## Trail Camera

After connecting to your HIKMICRO Trail camera, the captured photos can be transmitted to HIKMICRO SIGHT through a 4G network.

Thermal Monocular

# LYNX & LYNX Pro

17 $\mu$ m  
LYNX

12 $\mu$ m  
LYNX Pro

## Extended Operating Time

The design of low power consumption makes the continuous operating time up to 10 hours.

## Advanced VOx 12μm Imaging Sensor

For the powerful VOx 12μm imaging sensor with NETD<35mK ensure the perfect distinction of the target and present clear and detailed pictures even in complete darkness.

## Variable Digital Zoom

Digital zoom up to 8x enables better focus on small target from a greater distance.

## Hotspot for Mobile APP

Integrated hotspot module makes HIKMICRO Sight app as a second display. Users can remote control, adjust settings, upgrade firmware. Enabling the captured image being easily uploaded to social media.

**Compact Size,  
Easy to Carry**

## Video and Snapshot

Onboard 16GB memory offers storage space for the snapshots and video clips.

## Manual Focus

Control the image, observe the target clearly at greater distances.

Thermal Monocular

**FALCON**

HIGH  
SENSITIVITY

## Ultra Clear Image. Impressive Detail Recognition

The higher sensitivity in combination with high definition sensor and larger aperture optics provides the best quality, most detailed&high-contrast, informative image in all weather conditions.

- ◆ **NETD < 20mK**  
extremely high thermal sensitivity
- ◆ **Up to 640×512 @12μm**  
high-definition thermal detector
- ◆ **f/0.9 lens**  
super large aperture, 19% improvement
- ◆ **Image Pro**  
enhanced self-developed image processing algorithm

## Significantly Improved Design. Exceptional ease-to-use

- ◆ Ergonomic cylindrical shape design for better operation experience
- ◆ Perfect component design for intuitive operation and ease-to-use
- ◆ Robust magnesium housing and lens coating material for long-time use

## Replaceable and rechargeable high capacity battery, non-stop observation

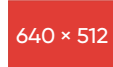

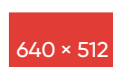

On one battery pack the device can run up to 6 hours. Another spare one provides enough power for non-stop operation. Besides, any ordinary power bank connected via a Type-C interface can be used as an external power supply.

## See Further or Wider. Catch More Details

- ◆ Long detection range up to 2600m and very large field of view up to 22m@100m
- ◆ Powerful digital zoom, up to 8x

Model	Introduction	Scenarios	Lens	Magnification	FOV (@100 m)	Identification Range Detection Range	Thermal Detector	Battery
<b>FH25</b> 	25 mm focal lens with @2x magnification, makes it an ideal partner in the forest.	  Forest Field	 25mm, F1.0	2.1 – 16.8 (8x)	 18.4m 350m 1200m	 384×288 @12um NETD<20mK	 7h	
<b>FH35</b> 	35 mm lens results in 13m@100m field of view. This makes it suitable for field hunting.	  Field Forest	 35mm, F1.0	3.0 – 24.0 (8x)	 13.2m 500m 1800m	 384×288 @12um NETD<20mK	 7h	
<b>FQ25</b> 	A super large FOV of 30.8m@100m let it be a natural forest hunting companion.	 Forest	 25mm, F1.0	1.4 – 11.2 (8x)	 30.8m 400m 1200m	 640 × 512 @12um NETD<20mK	 5h	
<b>FQ35</b> 	Its large FOV and magnification provide a perfect overview both at short and long distances.	  Forest Field	 35mm, F1.0	1.8 – 14.4 (8x)	 22.0m 600m 1800m	 640 × 512 @12um NETD<20mK	 5h	
<b>FQ50</b> 	Detection range up to 2600m and @2.6x optical magnification make hunters have good experience both in the field or forest.	  Field Forest	 50mm, F0.9	2.6 – 20.8 (8x)	 15.3m 700m 2600m	 640 × 512 @12um NETD<20mK	 5h	

## Four Color Palettes

The device supports four color modes—White Hot, Black Hot, Red Hot, and Fusion for different observation scenes. You can choose the settings that best fits your needs

Thermal

GQ50L

GH35/GQ35 GH35L/GQ35L

## Outstanding Image Algorithm

Self-developed image algorithm optimizes image quality, bringing users a high-definition and cleaner picture, highlighting the edge of the object.

## Ultra Long Detection Range

With the advanced imaging sensor and large-focus objective lens, GRYPHON series provides incredible detection capabilities.

DETECTION RANGE

IMAGING SENSOR

NETD

# Advanced Technology

## 01. Build-in Precision Laser Rangefinder

The integrated laser rangefinder allows to determine the distance in various scenarios, which play an important role in precision shooting.

Range up to  
**600<sub>m</sub>**

Accuracy of  
**± 1<sub>m</sub>**

## 02. Replaceable Battery

Two batteries and HIKMICRO external battery charger are included in the package box, which give the freedom to observe as long as needed even a full day.

## 03. New Way to Control

The wheel is used for menu selection and zooming, making the operation more natural.

## Ergonomic Design

The grip of the device is covered with lychee pattern leather, and the rounded transitional design provides a comfortable grip and an excellent operating experience.

## Large OLED Display

High resolution 0.39" 1024x768 OLED is capable of lower power consumption, wider viewing angle, and richer color, providing a better observation details.

## 6 Image Modes

GRYPHON series provides 6 image modes for different scenarios.

Multi-spectrum Binocular

**RAPTOR**

QUAD  
SENSORS

## The All-In-One Solution

In combination with thermal camera, digital day & night camera, and laser rangefinder, the ultimate innovative RAPTOR series binocular provides unprecedented observation capability in thermal or true living color, up close or from a distance, during day or night in adverse weather to break through your visual limitation.

### ◆ 20mK High Sensitivity Thermal Camera

- NETD<20mK high sensitivity
- up to 640x512 @12μm sensor
- f/0.9 larger aperture
- Image Pro
- 2600m detection range
- up to 91x magnification

### ◆ 2560x1440 HD Day & Night Camera

- 2560x1440 High resolution
- Min. Illumination 0.001Lux
- Built-in 850nm or 940nm IR illuminator
- The unique defog mode

### ◆ 1000m Laser Rangefinder

Built-in laser rangefinder with a range of up to 1000m with an accuracy of  $\pm 1$  meter helps get the target distance to make the right decisions.

## Purpose-Built Intelligent Features

### ◆ GPS & DMC

The GPS and Digital Magnetic Compass(DMC) feature ensures to locate the objects exact position through the precise measurement of an accurate azimuth relative to the direction of the magnetic north pole and a precise elevation of the observed object relative to the observer .

### ◆ Smart IR

With the different conditions of observation, the IR illuminator can adjust brightness automatically and intelligently to avoid overexposure. In such way, it also can reduce the power consumption and improve battery life.

### ◆ Purpose-Built Intelligent Features : Zoom Pro

Zoom Pro can significantly boost the zoomed image quality and enhance the zoomed image details, ensuring maximum image optimization under digital zoom, especially from 1x to 2x and 4x. It is supported in v 5.5.47 onwards.

### ◆ Local Album

The recorded photo and video can be browsed in local album of the device for more convenient and quick viewing.

### ◆ Automatic Display On & Off

When moving the device temporarily from your eyes, the display will be turned off automatically. There will be no light leakage from the eyepiece of the device.

# Groundbreaking and Practical Design

- Adjustable interpupillary distance from 60mm to 70mm
- Focus ring at your fingertips for intuitive operation
- Diopter range from -5 D to +3 D

## ◆ New Focus Knob Design Meets Convenience

The focus knob design makes the focus ring no longer a hassle. This enables a more convenient and natural posture of the hand, and smooth and precise lens focus adjustments with small finger moves.

## ◆ Two replaceable and chargeable high-capacity battery packs

The new battery pack extends working time up to 10h and performs superior to others especially in a low-temperature environment.

The battery is able to be charged both in the charging base and in the device itself.

## ◆ Brand new UI and quick menu activated

Brand new UI and friendly quick menu help quickly find frequently used functions

## Highlights Capturing

The pre-recording function will be activated after it senses the recoil, it will record the 7 seconds prior to your shot and 7 seconds after your shot, to create a 14 seconds video with audio.

## Ultra Low Power Consumption

Over 15 hours of active use. No more lost exciting moments due to drained batteries.

## Tradition Retention

Traditional-style design with 30 mm standard mount rings, meets the needs of professional hunters who value traditions.

## Multiple Reticle Profiles

5 Reticle Groups | 4 Colors ■ □ ■ ■ | 5 Reticle Types

## Precision Shooting

Zeroing with "Freeze" & "Zoom", improve the shooting accuracy.

Zoom

Freeze

## One Shot Zeroing

Zeroing the scope by marking the offset on the reticle after the first shot. Five zeroing profiles are configurable for different distances.

## Ultra Long Detection Range

With the advanced imaging sensor and large-focus objective lens, STELLAR series provides incredible detection capabilities, and can detect a 1.7m target at a distance up to 2600m.

HIGH  
SENSITIVITY

## Ultra clear image, impressive detail recognition

- ◆ **High thermal sensitivity, perfect detail recognition**

Every detail matters when identifying targets. Less than 20 mK NETD helps identify small details of objects from the backgrounds easily and clearly even in the hardest weather and low- light conditions.

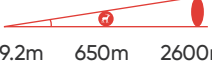

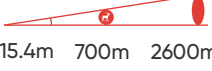

- ◆ **Vivid, informative, and layered images**

Even when hunting with thermal imaging, the powerful thermal camera still provides you with the most vivid and layered images for reliable game identification and maximum hunting success.

- ◆ **Built-in laser range finder provides an accurate distance measurement**

Distance from the game is essential to ensure a safe shot. Built-in laser rangefinder allows you to determine the exact time of your shooting.

# THUNDER ZOOM 2.0

OPTICAL  
ZOOM

## Ultra Clear Image, Impressive Detail Recognition

◆ Equipped with extremely high thermal sensitivity (NETD<20mK), THUNDER ZOOM 2.0 ensures vivid, informative, and layered Images even under the slightest temperature differences. For example, the smallest features such as bristles or the sex can be reliably detected when hunting wild boar. The branches or leaves will stand out clearly in front of the boar as well when with NETD<20mK.

Up to 640x512  
Thermal Camera

12 $\mu$ m  
Pixel Interval

50mm / 60mm  
Up to F0.8 Large Aperture

## ◆ High-Quality Zoomed Image through Optical Zoom

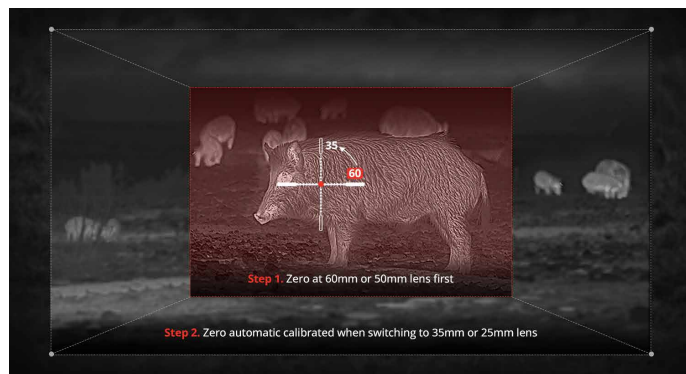

### Optical Zoom: Maintain High-Quality Images Even Zooming.

THUNDER ZOOM 2.0 offers dual FOV by optical zoom technology. Switching the device's two cameras, the image is zoomed with magnifications change and still maintains high quality.

### One-time Zeroing

Zero under the small FOV lens first, then switch to the other lens, the zero position will be adjusted automatically. That is, you can zero one time for two lenses simultaneously.

## ◆ Long Operation Time, Support Direct Charging

Two new battery packs extend working time up to 13h+, and can be charged in the device directly. Besides, it performs superior to others, especially in low-temperature environment.

## ◆ Quick Settings Brings Higher Efficiency During Hunting

1. Brightness and contrast adjustment in Quick Menu: helps to conveniently recognize details of the image in a few clicks.
2. The PIP function is activated with ONE press (Digital Zoom Key).

### ◆ Outstanding Image Algorithm

Self-developed image algorithm optimizes image quality, bringing users a high-definition and clearer picture, highlighting the edge of the object.

### ◆ Central Display Menu

After being assembled with the day scope, the content of the menu will not be obstructed, providing a user-friendly operate experience of menu selection.

## Reliability and Stability

The main body of the machine is made of high-strength plastic. The internal components are designed with precise reinforced articulation.

### ◆ IP67 Waterproof Rated

IP67 rated design creates protection from the rain, snow, even when it drops into 1 meter of the water up to 30 minutes.

### ◆ High Shock Resistance

Metal housing rugged components provides high shock resistance up to 750 g/ms on larger calibers up to .375 H&H, 12-gauge and 9.3x64.

# CHEETAH | Transform the Darkness

## Quickly spot targets from early daytime to starry night

This powerful 0.001Lux Starlight Camera captures any objects in great detail with its 2560x1440 UHD resolution.

## Improved software, easy to use

### ◆ Multiple modes available and special defog mode

The day/night/automatic/defog mode allows you to use CHEETAH in different lighting conditions. Due to a special optical component, it has an increased ability to detect IR information in fog, ensuring 24/7 observation

### ◆ The built-in adjustable IR emitter

The built-in adjustable IR emitter allows you to use the device in total darkness! (Optional for 850nm or 940nm)

### ◆ Built-in laser rangefinder

Up to 1000m detection range, allows you to determine the distance in various scenarios with great accuracy

## Improved software, easy to use

### ◆ Multiple modes available and special defog mode

The day/night/automatic/defog mode allows you to use CHEETAH in different lighting conditions. Due to a special optical component, it has an increased ability to detect IR information in fog, ensuring 24/7 observation

### ◆ The built-in adjustable IR emitter

The built-in adjustable IR emitter allows you to use the device in total darkness! (Optional for 850nm or 940nm)

### ◆ Built-in laser rangefinder

Up to 1000m detection range, allows you to determine the distance in various scenarios with great accuracy

## Multi-use flexible transformation

CHEETAH's replaceable eyepiece provides an easy and quick way to transform the clip-on to the monocular or scope.

## Compact yet powerful

Plug and play no further accessories needed, CHEETAH is designed to be a perfect portable hunting partner. This device weighs less than 477g and has improved functions.

## Replaceable and rechargeable battery

Two batteries and a HIKMICRO external battery charger are included in the package, which gives the freedom to operate as long as needed even for a full day.

**NEW**

Trail Camera

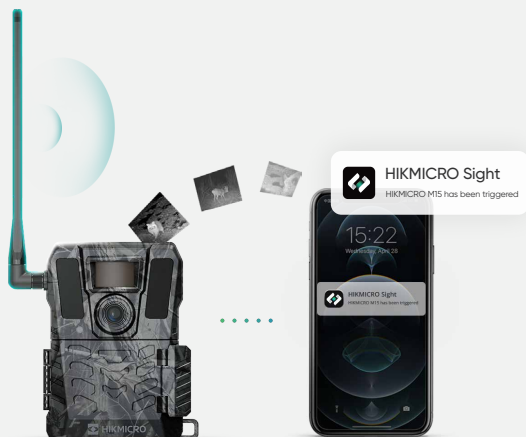

**M15** | Capture Game Efficiently

## Convenient 4G Network Reception and Transmission

The captured photos can be transmitted to cellphone through 4G cellular network as what you have configured- real time or on a specific schedule.

- ◆ **Rich yet ease-to-use functions via HIKMICRO SIGHT App.**

Stay more engaged, informed and efficient.

- ◆ **Cost-efficient and flexible data plan**

\*100 pictures per month, upgrade with \$0 for extra 300 pictures within time limits. Need more? Support data plan purchasing on the Sight app.

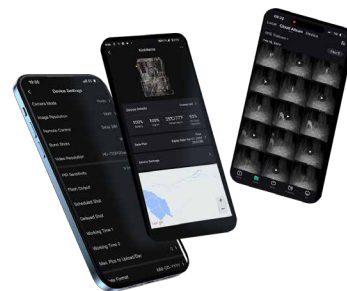

A promotional graphic for the HIKMICRO SIGHT app's data plan. The background is a close-up of a rugged camera. On the left, there are three icons: a globe for "4G Transmission and reception", a "FREE" badge for "Photo transmission", and a camera icon for "\*300 pictures Every month. No fees.". On the right, there is a large QR code. At the bottom left, a text box states: "\*This is a limited-time free offer! Please refer to the QR code to see more details." The entire graphic is set against a dark background.

- ◆ **Manage camera settings**

Configure photo & video reception and transmission in real-time or on a specific schedule.

- ◆ **Display of camera status**

Check your camera status with power, network signal, ambient temperature, memory card capacity, data plan and consumption, GPS, etc.

## Super Clear Photo and Video Capturing

- ◆ Up to 10MP Image Resolution
- ◆ 1080P Video with Audio
- ◆ 0.5s Trigger Speed
- ◆ 940nm invisible IR LEDs

### ◆ Up to 10MP image resolution & 1080P video resolution

With up to 10MP image and 1080P video resolution, it can take true living color photos or video clips during the day and super clear B&W images or video clips at night with 940nm invisible IR LEDs.

👁️ 940nm invisible IR LEDs

### ◆ 0.5s trigger speed

The M15 trail camera can be triggered within 0.5 seconds by the movement of animals with a highly sensitive Passive Infrared motion sensor (PIR).

### ◆ 25m detection range

The camera detects movement at an angle of 45 degrees and has a range of 25 meter (82 ft), which means that it can cover a width of 20 meters at a distance of 25 meters.

## Flexible Battery and Memory Card Solution

Please purchase batteries and SD cards separately.

64G

### Recyclable memory card storage

The oldest recordings in up to 64 GB memory can be overwritten when the storage is full.

### Extremely long working time

With 12 pieces of standard AA battery, the camera can work outdoors for a long time.

## High Reliability in Harsh Weather Conditions

IP66

**Operating temp. -20°C to 55°C**  
**Humidity 5% - 90%**

Model	HIKMICRO M15
Image Resolution	Up to 10MP(4240*2385), jpg
Video Resolution	1080P with audio , mp4
Trigger Speed	0.5s
PIR Detection Range	25m(82ft)
PIR Detection FoV	60° diagonal, 45°horizontal(20m width)
Capture Mode	Color by day, B&W by night(940nm IR light)
Cellular Network	4G(embedded in the cam)
App Function	Manage camera settings, display of camera status, monitor data Consumption and plans, configure photo&video reception and Transmission, photo&video browsing and category management
Data Plan	Free : 100 pictures per month with 30 days expiration
Storage	8 to 64 GB memory card(not included) 65600 pcs HD images or 36480 pcs video with 64GB
Power Source	Battery type: Standard AA battery (not included), 6 pcs or 12 pcs. External power: DC 12V input
Working Environment	Operating temperature : -20°C ~ 55°C Humidity : 5%-90%, ip66
Weight & Size	112*86.4*143mm, 440g
Standard Accessory	Installation strap, pre-installed SIM card, antenna, USB cable, QSG

# OUTDOOR GEARS FAMILY

## Powerful and Clear, Fluid and Fun

### Powerful thermal detector, image matches your visual experience

Equipped with a 9.7mm lens and 256x 192 @12μm detector, it ensures the thermal image significantly matches your visual experience.

Model	EXPLORER E20 PLUS
Thermal detector	256 × 192 12 μm
Frame Rate	50 Hz
NETD	≤ 50 mK (@ 25°C, F# = 1.0)
Lens (Focal Length)	9.7 mm F1.0
Magnification	1× to 2x (Digital zoom 2x)
Field of View (H × V), Degrees/m @ 100m	18.1° × 13.6° / 31.8 m × 23.8 m
Image Mode	Birdwatching/Red Hot/White Hot/Black Hot/Rainbow/Ironbow
Power Consumption	360 mW
Dimension	26.6 mm × 26.6 mm × 27.2 mm
Weight	26 g
Other features	Brightness Adjustment/AdjustmentRecord Video/Capture Snapshot/PIP/Digital Magnetic Compass/Hot Track

## Plug and Go, Easy to Use

### ♦ Mini in pocket, smaller than a watch

Less than 26 g, just take it as you go.

Weight: < 26g

Size: 26.6 mm × 26.6 mm × 27.2 mm

### ♦ Installation takes less than one second, wireless connectivity supported

Simply plug in the E20Plus to your smartphone and start exploring it with HIKMICRO Sight APP right away.

Scan to view compatibility

## 1.39" AMOLED Display

The AMOLED display offers clear, smooth and vivid images and videos even on the move. And photos and videos can be viewed timely through the large display to avoid eye fatigue especially during long-time using.

Model	HIKMICRO HEIMDAL H4D
Resolution	2560x1440
Objective Lens	31mm/F1.2
Digital Zoom	1x, 2x, 4x, 8x
IR Illuminator Wavelength	850nm
Viewing Range at Night	200m
FOV (HxV), degrees/m@100m	13.66x7.71° / 23.95x13.48m
Display	1.39-inch AMOLED, 454*454
Image Mode	Day/Night/Auto/Defog Mode
Battery	Replaceable and Rechargeable Li-ion Battery, Operating Time:>4h
Weight & Size	153x50x80mm, 375g
Work Temperature& Protection Level	-20°C to +55°C, IP67
Other Features	Electric Image Stabilization, Local Album, Hotspot, Manual Focus, Photo/video Recorder with 32GB Memory

## Day & Night Use

### ◆ Super Clear Image with EIS

The 2560×1440 high resolution ensures the super clear image, and with Electric Image Stabilization(EIS) the zoomed image still can keep clear and steady.

### ◆ 200m Viewing Range at Night

With built-in 850nm infrared illuminator, it enables clear viewing with up to 200m viewing range from dawn to complete darkness for 24/7 use.
